- Independently set chime zones
- One-touch action buttons
- Three keypad-activated panic alarms
- Adjustable backlight, contrast, and scroll speed
- Display time using the 12 or 24 hr. format

K656 Overview

32-Character Blue LCD Display

The K656 provides the installer and end-user with an easy-to-follow menu via a bright blue LCD display. The display features adjustable backlight, contrast, and scroll speed.

Menu-Driven Programming

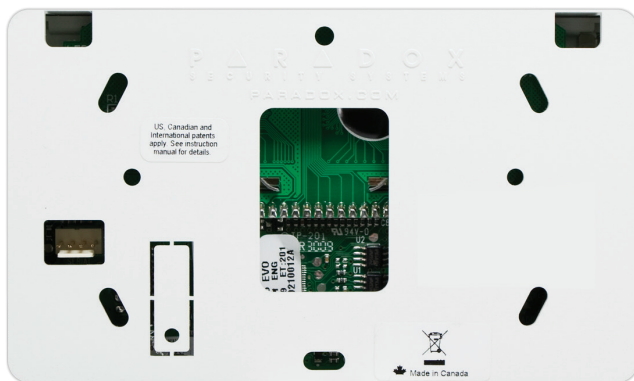

The K656 features an intuitive menu structure with prompts, allowing you to configure your system with ease.

Panic Buttons

The K656 features panic buttons to send one of three panic signals to a monitoring station. This ensures assistance in case of fire, medical emergency, or security breach.

In-field Upgradability

Upgrade the K656's firmware on-site using a 307USB Direct Connect Interface.
