# GK-1

## SMART IR CONTROLLER

- This controller is with functions of Learning and controlling infrared devices that can control all the infrared home devices with massive cloud code library and one-click matching appliances.
- No wiring is required, simple to install

## TECHNICAL SPECIFICATION

Networking	Wi-fi (2.4g)
Controllable Distance	About 10 meters Ir, No obstacle, infrared ray can't penetrate the obstacle
Antenna Type	Infrared Module
Control	- Android4.3 - IOS7.0 or above
Appearance Material	PC
Equipment extension	Infrared remote control equipment

## TECHNICAL SPECIFICATION

<b>Power supply voltage</b>	<b>DC5V/1A</b>
<b>Working Humidity</b>	<b>10%-90%RH (no condensation)</b>
<b>Operating Temperature</b>	<b>0 - 40°C</b>
<b>Remote control code library</b>	<b>AC/TV...</b>
<b>Communication Mode</b>	<b>IR Control (26 - 64K carrier)</b>
<b>Size</b>	<b>58 x 58 x 58mm</b>
