GM-1

SCENE SWITCH 1 WAY

- You can link every scenario button with scenario that you want.
- For example, in the back home scenario, one-button controls multiple devices, water boiler for bath, illumination light, Air-conditioner, TV, and etc. 1 button means it can control 1 scenario; 4 buttons means it can control 4 different scenarios.
- Battery power design with installation bracket on the back enables you to install any place you like and remove it easily for the battery change.

TECHNICAL SPECIFICATION

Communication	433MHz (GFSK)
Control	- Android 6 - IOS 9.0 or above
Appearance Material	PC
Battery Model	3V CR-2032 (2 years)
Distance	12 - 20 meters
